Work Experience

Feb 2026 – Aug 2026 | Data Business Intelligence, Up Shifters, KSA, remote

- Built a complete multi-platform advertising analytics semantic model from scratch in Power BI, integrating performance data across Meta, Google, TikTok, Snapchat, X (Twitter) and ClickHouse, delivering executive-level reporting across marketing and sales operations.
- Redesigned enterprise data models into Star Schema architecture, optimizing relationships, simplifying semantic models, improving DAX performance, and significantly enhancing report scalability and maintainability.
- Developed dynamic forecasting logic distinguishing actuals from forecasted values, replacing static logic with a fully dynamic boundary calculation tied to live data refresh
- Automated reporting for 20+ business KPIs (Leads, CPL, CPC, CTR, and more), reducing manual reporting time by 70%+ through advanced DAX, Power Query, and data modeling.
- Built scalable ETL pipelines, standardized UTM attribution, resolved cross-platform data quality issues, and managed Power BI Service deployments, scheduled refreshes, and enterprise reporting workflows.
- Developed custom Power BI solutions, including HTML ad creative galleries, branded report themes, and executive dashboards that enabled faster campaign analysis and data-driven decision-making across teams.
- Conducted multiple Power BI and Data Analytics training sessions, preparing training materials, mentoring learners through real-world hands-on exercises, and providing technical guidance on SQL, Power BI, DAX, Power Query, data modeling, and dashboard development.

Feb 2024 – Feb 2026 | Data Analyst & Power BI Specialist, Heroleads, UAE, remote

- Built and maintained Power BI dashboards and reports to track key business metrics.
- Analyzed performance data using Python, Excel, and Google Sheets.
- Ensured data accuracy through quality checks and collaboration with internal teams.
- Provided weekly insights, highlighting trends, risks, and opportunities in digital marketing campaigns.
- Supported the development and improvement of data systems and processes.
- Prioritized and managed data-related projects with client success teams.
- Stay up to date with Power BI best practices and report to the Head of Performance & Data

Oct 2021 – Oct 2023 | Software Engineer, First Lieutenant, Egyptian Air Force in Association with US Air Force, [Certificate](#)

- Resolved 95% of database issues on time as a junior software engineer and was later promoted to First Lieutenant, maintaining 100% mainframe uptime and high user satisfaction.
- Led 4 officers and 20+ soldiers while overseeing the rollout of next-gen mainframe, software, and network hardware for more than 10,000 users.

- Collaborated with U.S. Air Force engineers to analyze and migrate databases containing 25,000+ tables and used Tableau and Power BI to present insights to commanders.

Education

Bachelor of Engineering, Zewail City of Science and Technology, Aerospace Engineering

Certificates

Mar 2024	Marketing Analytics with Meta	Certificate
Mar 2024	Data Analytics Methods for Marketing	Certificate
Nov 2023	Version Control, Meta-Coursera	Certificate
Oct 2023	Statistics for Marketing, Meta-Coursera	Certificate
Oct 2023	Introduction to Data Analytics, Meta-Coursera	Certificate
Sep 2023	Introduction to Databases, Meta-Coursera	Certificate
Sep 2023	Marketing Analytics Foundation, Meta-Coursera	Certificate
Sep 2023	Google Analytics for Beginners, Google	Certificate
Jul 2022	Data Analysis Advanced Nano Degree, Udacity	Certificate
Mar 2022	Data Analysis Professional Nano Degree, Udacity	Certificate
